

BYTESCREEN

CONNECT • DETECT • PROTECT

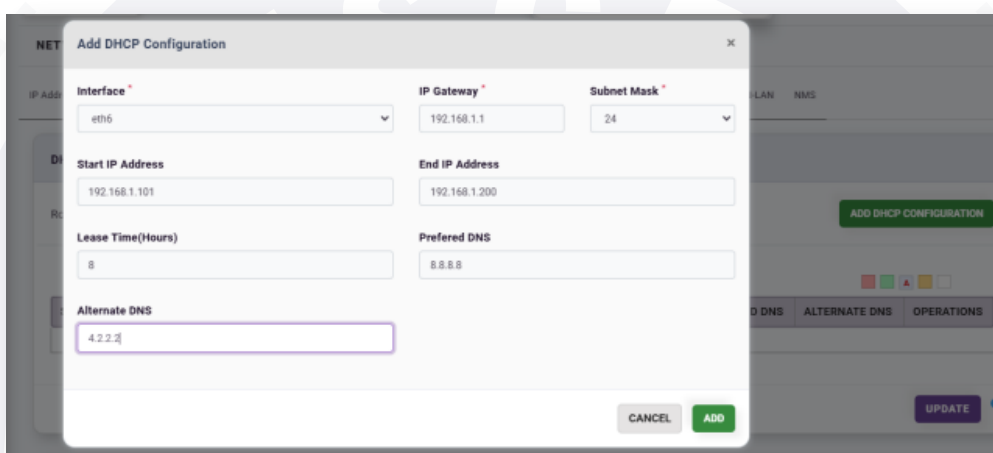

DHCP Configuration

1. Login in the <https://fusionm.bytescreentech.com> (Management Controller)
2. Click Network (in right side menu bar)

The default DHCP on LAN is disable
To configure DHCP go to Network => DHCP Configuration
Click on "Add DHCP Configuration".

1. Interface: Select the LAN interface or which LAN interface the DHCP should want to enable
2. IP Gateway: Interface IP
3. Subnet Mask: Select the subnet mask of the interface network
4. Start IP Address: DHCP starting IP address
5. End IP Address: DHCP ending IP address
6. Lease Time (Hours): to DHCP lease time
7. Preferred DNS: Use global DNS 8.8.8.8
8. Alternate DNS: Use global DNS 4.2.2.2

After completing all the required details, click the ADD button.

After adding the configuration update the setting to apply.
